

PHUSION WELLNESS

Providing Care in Utah

In response to COVID-19 the Federal, State, and local governments have recommended and in some cases required social distancing. (<https://www.cdc.gov/coronavirus/2019-ncov/downloads/community-mitigation-strategy.pdf>). Telemedicine has been promoted to help patients receive needed care. (<https://www.cms.gov/newsroom/fact-sheets/medicare-telemedicine-health-care-provider-fact-sheet>). To open up access to medical care through telemedicine the DEA has lifted the need for an in office visit to prescribe controlled substances (<https://www.deadiversion.usdoj.gov/coronavirus.html>). Phusion Wellness is dedicated to meeting the needs of chronic pain patients in a safe, effective and efficient way. Phusion Wellness has been providing medical care for chronic pain patient in Arizona since 2016. We are planning on opening an office in the Salt Lake Area in May 2020. To support the needs of chronic pain patients in Utah and support social distancing and patient safety, Phusion Wellness will be offering telemedicine visits immediately for the next 60 days before starting in office services in May 2020.

Sincerely,

Scott Woffinden, PA-C
